

FORK LIFT SWEEPERS

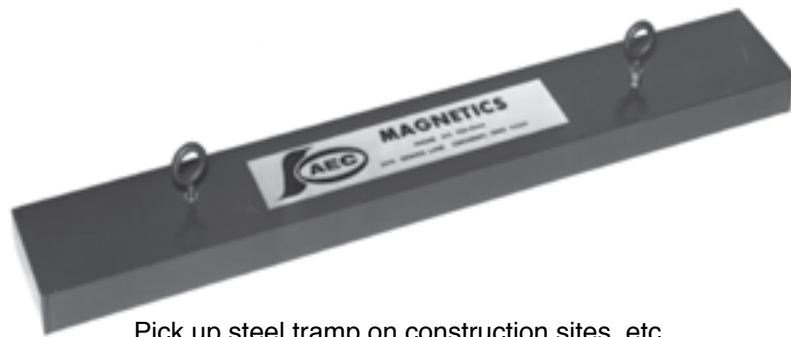

Use these sweepers to clear factory and warehouse aisles and driveways. All models are 4" high by 3" deep - Eyebolts included. To unload, push the sweeper to the desired dumping area (i.e. a piece of cardboard) and pull the release handle. As the magnet rises, collected material is released from the collector plate.

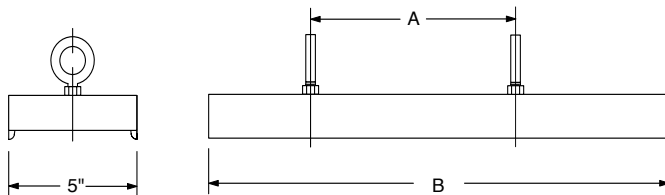

Use attached eyebolts to securely attach sweeper to a forklift.

Pull release handle to quickly clear metal pieces from sweeper.

PRODUCT NUMBER	SWEEPING WIDTH	MAGNETIC SURFACE AREA	8 PENNY NAIL PICK UP TEST	APPROX. LBS. PULL	APPROX. SHIPPING WGT.
